

# Johnny's Brandywine Organic Tomatoes

From Johnny's: We describe Brandywine's luscious flavor as "very rich, loud, and distinctively spicy." The large fruits, often over 1 lb., have a deep pink skin and smooth red flesh. The medium-tall, potato-leaf plant is best staked or caged. Our "Quisenberry" strain is considered among the best.

Indeterminate; should be staked, trellised, or caged, and pruned for best results. Fruit ripens over an extended period. Transplant into medium-rich garden or field soil 14-20" for staking. Water seedlings with a high-phosphate fertilizer solution. For earliest crops, set plants out around the last frost date under floating row covers which will protect from frost to about 28°F (-2°C). If possible, avoid setting out unprotected plants until night temperatures are over 45°F (7°C). Frost will cause severe damage!
