

# Baker Creek Purple Jalapeno Peppers

A large Jalapeno pepper that turns deep purple before maturing to red. Produces beautiful purple flowers. Full Jalapeno flavor; great for salsa and other Mexican foods. Plants both productive and ornamental. 75 days to maturity.

Reviews indicate that purple jalapenos have great flavor but lack heat commonly associated with jalapenos. These peppers were best utilized for pickling or for adding subtle jalapeno flavors to salsas and sauces. Some, but not all peppers will grow to a size suitable for jalapeno poppers.
