

Johnny's Yankee Organic Bell Peppers

Blocky 3-4 lobed fruits are medium sized and a bit smaller than our hybrids. Better quality and uniformity than most open-pollinated varieties.

Transplant out after frost when the soil is warm and weather is settled. Ideal seedlings have buds, but no open flowers. Set plants 12-18" apart in rows 24-36" apart, or 2 rows on poly/paper mulch, 18" between plants.

Water-in transplants using a high phosphorus solution.

Pick the first peppers promptly when they reach full size to encourage further fruit set. Wash and hold at 45°F (7°C) and 95% relative humidity.
